Imagine a human man, who would tell a human woman – right at the start... *“I love you – but, I don’t think that I want any children.”*

[An “ET” - right?](#)

Well, I’ve got one! I caught him at [NCR](#) – in [Cambridge, Ohio](#) (circa 1982). And, we’ve lived “happily-ever-after” since.

Why would a human man tell a woman this?

Well,

1) maybe she already had a “little girl” – which, I did.

And, **2)** maybe she “let” her former husband [GBB] (that “little girl’s

biological daddy”) – have [“physical” day-to-day custody](#) – of that little girl; so, that **3**) she (the woman) could go to college – at [UWGB](#) (“full-time”) – which, I did do this.

4) In fact, it was so unusual (then) – when I did it – [circa [1977](#)] – that **5**) [Ohio Judge \(Thomas TyACK\)](#) had to make up new legal language. At least, that is what he said (1977)– and, he charged me (extra) - for doing it. **[Just kidding Tom – YOU were a GREAT attorney!]** And, maybe, **6**) that little girl’s “biological father” [GBB] needed to be reassured that no future harsh words (about him) would ever be spoken – to “his little girl” – when she came to visit. [with her mother and this new man] Which, none ever were – when, she came to visit (or, was visited) – by her biological mother [Susan Marie [Cassady] and, the new man – which, the little girl – frequently was. In fact, the “little girl” was employed, in the company that the woman and the male ET made: ([Hans And Cassady, Inc. – 5761 Chandler Ct. – Westerville, Ohio.](#))

Finally, **7**) This male ET wanted the little girl (to know) – and, never doubt – that SHE was NUMBER ONE! – and, she would never compete – with another child (his biological human child) – formed with, that human woman. As, the woman (“me”) – I did NOT want to “raise” another human child – after, I had “given up”- so much – of my precious mothering “responsibilities” – to pursue and receive a [B.S. in Environmental Sciences – from UWGB](#) (1982).

So girls... **“Please consider to give HIM custody”** – you just may just find – and catch – your very own ET.
