

THE "MENSA - DRESS"

- BY Susan Marie CASSADY "me"

(Mrs. Hans Neuhart) - (January of 2017)

**[BEGIN ]**

So, I liked Hans a whole bunch - right from the start.

And, I decided to tell him stuff - so that he would like me - even more. - Now, this was plus - the huggin' and the kissin' that I would do to him.

So, I told him - one day - early on - about "how smart" I was. Or, at least, how smart the people at UWGB thought that I was (in 1981); and, the people at Starling Junior High School - thought that I was (circa 1965). That is, I had done "real good" - on the "astronaut testing" programs - which these were prevalent in public schools in the sixties; and, the school (i.e. DANA Elementary - Columbus, Ohio) had called my Mom to come on in and talk about it.

So, after - the huggin' - and the kissin' and the talkin' (about "how smart I was"); well, Hans - he decided to get me a dress - like the ladies - who were MENSA people wore (these kind of dresses). And, I pretty much liked the dress.

But, then - there came the day - that I tried to (*actually*) put it on. And, Oh dear - what a mess! I mean - between the two of us [Hans & me]- we had me turned every which way - but loose.

But, I tell you my "friends" - persistence - it does pay off! And - eventually, we got the dress onto me. However, as it turned out - and, we came to see; a dress like this - was never meant for a lady - so skinny - and boob-less - as me.

In fact, a dress (like this) was more meant for my sis - of which, I had four - and, they all had much more... from the get go - up top - and, so...

YES, I have always been "One of them "Gloria Steinem types - with 14 PhDs and a pair of pathetic cupcake hooters." Well, at least - I wanted to be. But, please recall, I was a Mom when I was a teen-ager - so, this (14 PhDs) was not possible for me.
