**Request For Permission** :: <https://marlerclark.com/lawyers/denis-stearns>

Dear Mr. Stearns ( Denis )

I did read your "[bio](#)" - and, I hope that my request finds you well.

Sir, I am a graduate (also) of the University of Wisconsin [ [UWGB](#) ]. I received a **B.S. - in Environmental Science (1982)**. Although encouraged - by my Professors [ Keith White, Nancy Sell and Alice Goldsby ] - I did not go on - to attend more schooling - for a higher degree - related to the fact [that] I did have a young daughter [ who was born in 1973 ]; And, I wanted to be nearer to her physical location [ which was – then – Whitehall, Ohio ]. Specifically, in the 1970s - I took the (then) unusual step of “giving” her biological father "physical custody" - of her; so, that I could attend college [UWGB] "full-time". **Thus, our mother-daughter relationship was “strained”**. As you may know - laws were [later] passed to prevent [that] which my ex-husband did do - to me and my daughter. The legal term (today) is "[Parental Alienation](#)".

**MY REQUEST:** Sir, I did save your PDF document ( Related to Product Liability Law & History ) - And, I would like to post it (the saved PDF document ) onto my "personal web site:

<http://hansandcassady.org/> - for download – as needed.

**The purpose** of my "personal" web site - specifically - is to “rehabilitate” my brain – after stroke surgery. In fact, I survived a major "full craniotomy" medical surgery procedure (2012) - and, because I was a "Software Technical Writer" - prior to the procedure [performed to

save my life] - it was theorized ( by [Neurologist – MD - Doctor Zhao](#) ) - [that] "*building* a web site" 'HTML coding' [which I had done & enjoyed previously] would be helpful in re-growing the neuronal brain cell [dendrites](#) - which were severed - during the required emergency surgical procedure. Please note, (today) I also perform Yoga poses - and stretches - daily - at my local YMCA. Now, 6+ years - after the event, most of my YMCA acquaintances exclaim: "*I had no idea [that] you did have a stroke- ever*" **I am doing well!** If you visit my "personal" web site - you will see [that] I have challenged President Trump to a debate - on the subject of "[Socialized Medicine](#)". He has not accepted – yet. My daughter (Dawn Marie [Burton]-Danielson) is [today] the "Deputy Chief Of Staff" for our USA-FBI. [James Comey](#) was my daughter's previous "boss" and, her "friend". They worked (together) - at [Lockheed Martin Aircraft](#) & the [USA-DOJ](#) prior. James invited my daughter - to join "*his FBI Team*" in Washington, DC. She accepted (circa 2014). Her personal FBI "department" web page has been taken down – under Mr. [Christopher Wray's](#) tenure. I will be posting her impressive background – and full education – to my web site – soon. She is a licensed attorney.

**I do support the idea of Socialized Medicine** - and, **I believe** there is an argument (to be made) [that] the USA Health Insurance Industry has deliberately designed a "**defective product**" [so called "[supplemental Health Insurance](#)"] - knowing, there is a better alternative (which is, Socialized Medicine).

My "personal" web site presents my [suggested Health CARE Bill](#) - and, HOW (according to my extensive research) "Socialized Medicine" could be afforded – easily – in the USA. [ That is, the [research](#), a design - and, a proposed Bill - for introduction to the 116th Congress]. Your PDF document "[AN INTRODUCTION TO PRODUCT LIABILITY LAW](#) " would be a nice complement – to the arguments I make - I feel. Thus, I hope you will permit me to post your document – onto my "personal"

web site. I will do my best to implement any Author citations – that you prefer. Your law firm – by name, etc. My [resume](#) of education and experience is also available at my web site. **I am professionally retired.** My husband (of 37+ years) is the nationally known “digital artist” – [Hans Neuhart](#). A younger-man, Hans is NOT retired.

Respectfully, Susan Marie [CassAdy]-Neuhart
