SUBJECT: Compliment and THANK YOU! Re: HHS submittal

Dear **Ms. Boosalis** , my name is Susan Neuhart. On May 18, 2021 - I was very briefly in a "patient" status - at the medical facility [that] you are the "CEO" of: Miami Valley Ohio Hospital North - operated by "Premier Health". You may be contacted - related to a FDA-HHS "MedWatch" action item - [that] I submitted 6-3-2021:

[**IMAGE:** <https://hansandcassady.org/fda-MEDwatch-CONFIRMATION-MESSAGE.JPG>]

As you can see [Reference A2 – URL below], I tried to make it "clear" - that - the "Patient SAFETY Team" - I encountered - on 5-18-2021 - did their legal duties - very well! - AND, (I learned subsequently) they literally saved me - from injury - or death. SIMULTANEOUSLY- I want to **"make the case"** - [that] other involved Federal, State and Manufacturing "entities" - NEED to do more - related to the Magnetic Resonance Human Machine Technology interfaces! (Also called "MRI machines".)

As I relate - in the "action item" submitted [REFERENCE A2] , - I accepted this responsibility – Michelle may recall? (on 5-18-2021) - and, I am "uniquely qualified" - to do it.

As a "successful professional woman" - you (no doubt) appreciate my *thoroughness* - and, also realize how hard [that] I will try - to "follow-through".

ADDITIONAL PERSONS I HOPE TO CONTACT ARE SHOWN HERE:- <https://hansandcassady.org/SEND-TO-MRI-SAFETY.html> - YOU can see [that] I am still "in progress". You (or your agent) are free to contact me (via my Email) - if necessary. I do not use a telephone device - without notice. [SusanCN@hanSandCassady.org]

I wanted to EMPHASIZE - [that] - because my assigned ""MRI/MRA Patient SAFETY Team" - did such a **good job** - my visit resulted in NO HARM (to me) ; NOR, was I even uncomfortable - that day. Obviously, human individual personality - comes into play - but, your staff members were obviously "well trained" ; - which, your leadership - makes that "training" possible. **It literally saved my life.**

So, THANK YOU - and, keep up the good work!

- sincerely - Susan Neuhart
