Dear Foreign Language Press Editors & Staffers,
I hope this message finds you well.

My name is Susan Neuhart. I am a retired American. When I did perform paid work, I was a "Software Engineering Technical Writer". What we typically do - is prepare "End User Manuals" -for "users" of products. This is all explained on my personal web site. (<http://hansandcassady.org/>)

The purpose of my web site - is to entertain (myself) and inform my large family - and acquaintances. I am child number 5 - of the 7 children my mother & father created.

I do not sell anything - on my personal web site.

I am married 39+ years - to the Science artist Hans Neuhart.

[<https://www.sciencevectorart.com/>] Hans is younger - than me - but, retiring also. We met in 1982 and married in 1983. His family - did not (initially) approve of me - as, I had been married previously and did have a nine-year-old girl - already. I was also - skinny; whereas, his brothers had married 'fat' girls. His family raised champion "race horses" - in Southeastern Ohio.

My purpose in contacting you - is to inform you [that] I have obtained the "full text" of Xi Jinping's document:

" The Governance Of China Volume 1" - and, I am "shredding" it - for persons who care to view it (in html format).

It will be available on my web site eventually. I will not charge any amount - for the html "shred" presentation. I do this - for personal entertainment.

I take pride in being thorough - so, it will be some time - before it is ready for viewing.

"Shredding" is a new use - of an old word - in English - [that] I invented. It means (to me) a careful reading of the words - and phrases - in a document - literally "engaging with it" AND hyperlinking the content - as needed - to understand and reflect on the Author's purposes. I performed this on a work by Martin Luther King Jr. "**Why We Can't Wait**": <https://hansandcassady.org/WhyWEcannot-Wait-by-Martin-Luther-King-JR.html>

As I clarify, I grew up - in the "inner" areas - of a large American City - during 1954-1972 - so, we have many experiences in common. However, because I am a "white" American - I may have had opportunities - that many "black" Americans - were not given. - Viewing the page - that I prepared - for Dr. King's work - will give you an idea of my intentions.

Similarly, I have been a "co-worker" with Chinese people - in "high-tech" venues - all over the United States; but, because - I did not "grow-up" with Chinese people - I anticipate [that] I will have questions - unlike, my Dr. King experience. Which, you (as a "Publisher") may find my questions useful. That is, IF, part of the goal - of the writing and publishing of the Xi JinPing work - is to inform "average Americans". Our financial success - is primarily related to my husband's - artistic talents - but, otherwise - we are [I am] an "average" American.

For example - during the very early days - of my employment with "SIGRITY" - a group conversation occurred - in which - I explained [that] my mother - would give me a shovel - and instruct me to "... dig to China ...". This comment made my Asian co-workers laugh - and relate: "...When we were young - we could not understand - why, you guys didn't fall off... ". This made me giggle. I enjoyed my employment - with SIGRITY - very much! I could not have succeeded - at my well-paid task - without the

great patience - of my co-workers - to "explain" - the purposes and uses of the sophisticated software product's features. After I left - it was reported - in the US News - the owner sold the "product" - to another US Company - for \$82 Million US dollars - circa 2010.

I look forward to hearing from you!

Sincerely - Susan

NOTE: You may reply - by email - but, be aware - Americans are cautioned NOT to "click on any links" - contained in emails - from China - or Russia.
