Hello Susan,

- 1) Unfortunately you did speak with the doctor and discuss non operative treatments.
- 2) Although the disc you a gave us wasn't compatible with our system at that time [3-13-2018] she [**Dr. Jerele**] had reviewed the images previously and [then] discussed with you options of care. [on 3-13-2018]
- 3) **However you will need to contact our billing department to discuss your bill with them, because I am unfamiliar with their process.**
- 4) Im not sure but there should be contact information on your bill.
- 5) **Im not sure if they provided an e-mail address for you to use since you do not use the phone.**
- 6) Also, I am unable to forward any mychart messages to the billing department.
- 7) Also, because I am not familar with our billing process **this is a matter you will have to handle via letter or e-mail.**

Thanks-CeCe

THANK YOU Ms. Chatauqua PLEASE FORWARD THIS MESSAGE TO THE "Billing Office"

Please emphasize - to them - that I do NOT use the telephone. They (or you) can Email me: SRedacted@HansANDcassady.ORG

UNFORTUNATELY, I have received another billing - for the same visit (3-13-2018) - where NOTHING was able to occur - as YOU note below.

Please explain! When you are able to. **Is there something else that I am required to perform?** YES - I did sign & deliver the "medical release" document. YES, I did research the drug names that Dr. Jerele wrote on the piece of paper. I do NOT wish to take these drugs. Your office has a list of the drugs - that I take + vitamins; AND, I still try to perform my YOGA poses - every day - at the Kleptz YMCA. I also attend OMEGA & Shiloh Christian churches.

- As the records should show, I telephoned P.O. previously. This billing is a mistake...

In fact, DR. Jennifer Jerele was NOT able to access the required MRI images - related to DR. Keith Bidwell's [apparent] refusal to co-operate with her office :: RELATED to my shoulder MRI procedure - performed at: Medical Center Elizabeth Place - Dayton, Ohio.  
Recall, that I made a special HTML web page - related to this matter ::

Subject: Visit Follow-Up Question

3-21-2018 Dear Patient Billing.

Hello. I met briefly with Dr. Jerele - on 3-13-2018. At that meeting, we were not able to make any progress. **Zero.** This was directly related to a Dayton, Ohio M.D. & Radiologist's refusal to release (to DR. Jerele) the information about WHY he reported that I have a "tear" [2cm transverse gap"] in my Supraspinatus tendon. ( The MD of interest is: **Dr. Keith Bidwell.**) His report is based on a MRI series that - he reviewed AND was paid - more than \$5,000 for doing so - by the USA Gov. AND me. WE do not know **why** he refuses to state the specific basis of his finding. I am not certain - but, I feel that his refusal to state which image [or images] - of the more than 120 "MRI technology images" - he based his very specific report on - is illegal. After all, he does NOT own the images. In fact, the USA Government & me "own" them. His report (PDF) AND the "raw" MRI images [ uploaded to my personal web site] can be viewed at the following URLs.

Please attempt to persuade DR. Bidwell M.D. to specify HOW he formed his professional opinion - to DR. Jerele' -i.e. which specific images show the tear - he saw. I have signed medical release documents, etc. - they are on file with Dr. Jerele. Again, WE can make no progress until this information is obtained. I perform YOGA poses daily - And, USA Government research indicates such YOGA poses can sometimes "heal" human tendon tears - if, I have the correct genes. This is related to FDA Stem Cell Trial Therapy studies - that are in progress. Thank you. WE look forward to your investigation (of Dr. B's refusal) and reply. Patient of Dr. Jerele. - Susan
